 - transportation:** transported weight of AV, materials, furniture and other stand-based items, distance and mode of transportation.
 - waste:** recyclable and residual waste.
- Note:** a result of 0.00 tCO₂e does not indicate zero emissions, merely that the category reports fewer than 10kg CO₂e when reported in tCO₂e to two decimal places.

mitigation

use the data in this report to understand significant variables & support mitigating the emissions impact of your next event using a more sustainable event planning process.

thoughts for future mitigation:

travel

whilst the absolute number of emissions associated with the delivery of this element of Discarded Spirits at SGP 2023 is extremely low, there is a significant proportion of this associated with the use of private vehicles. You may wish to consider increasing the use of public transport if possible, to mitigate similar emissions at future events.

other factors

event:decision has not been asked to consider other factors (food & beverage, consumables, power consumption and sourcing or waste as part of this report.
